

## Patient Testimonials

- *"The deep wrinkles on my forehead are gone; my skin is tighter and I have smaller pores."*
- *"Looking at my Before and After pictures, I was stunned--there was a major change!"*
- *"I don't see wrinkles, there's no more 'hooding,' and it really opened up my eyes. I can now wear eye shadow."*
- *"There is a continual progression in looking better...this is just amazing to me!"*
- *"3-4 weeks after treatment, I started receiving comments like 'you look great' and 'what have you been doing?'"*
- *"There was no down time and the results are very quick and very natural...Nobody knows I had anything done. They just know I look better."*
- *"I definitely don't have the sagging I had before. I would do it again."*
- *"I wanted to tighten up my face but felt I was too young for something drastic...Of course a facelift was out of the question."*
- *"Friends I hadn't seen in 20 years told me I hadn't aged a bit...Their comment was, 'You look exactly the same.' And you really just can't get a better compliment than that."*
- *"I like looking better...without looking 'done.'"*
- *"My skin actually feels thicker. It feels like younger, more resilient skin."*
- *"My aesthetician says my skin looks fabulous!"*
- *"After the Ultherapy treatment, my skin looked firmer...it felt tighter. The sagging I had noticed before was eliminated."*
- *"My husband tells me that I look younger and better than I did when we met over eight years ago. That's a fun compliment! Friends, too, have noticed and mentioned my youthful appearance, but are not certain whether I've had work done. (Of course, I tell them if they ask!)"*
- *"OK, I do not want to sound boastful, but gosh I look good! My chin line has returned (I had missed it so), I definitely have eyelids and the wrinkles in my chin are half of what they were. I just love this! So, for all of my complaining and whining [about the discomfort], this is a splendid result!"*
- *"I was at the [cosmetics] counter yesterday, looking at tightening and wrinkle cream and the consultant told me that I didn't need the tightening cream because I have a nice jaw line and tight skin for being in my late 30's (of course, I'm sure he was being kind – I'm 48), but I've been thinking I look different, too, and I'm certainly not losing weight to have the double chin go away!"*
- *"[the Ultherapy procedure] was fairly pain-free, but considering the alternative, it is 1000 times better. I liked the experience in that it was quick - no bruising or stitches - so no inconvenience to my everyday happenings. I also like that the result is gradual over a 90-day period, so it's not obvious to others; I just begin to look more rested."*
